

AlliDerm®

Moisturizing Gel (1 fl. oz (30ml))

AlliDerm Gel contains 100% stabilized allicin powder from fresh garlic.

AlliDerm Gel is the strongest and safest natural topical disinfectant harnessing the power of stabilized allicin, derived from garlic, without harming your body's good bacteria or causing negative side effects.

AlliDerm can be used topically or internally (nasal, rectal and vaginal) for a wide range of conditions: headlice, herpes cold sores, warts, acne, eczema, psoriasis, rosacea, toe and finger nail fungus, mouth ulcers, tooth abscess, gingivitis, and molluscum contagiosum. Use to soothe insect bites, bruises, wounds, burns, rosacea, cuts, infections, skin diseases & more.

Support your body's immune system with AlliDerm. Guaranteed 100% yield of pure stabilized allicin. Garlic for AlliDerm Gel is sourced from Spain.

AlliDerm Gel is a formulated allicin liquid into a cosmetically acceptable aqueous gel. It contains 100% allicin powder, the powerful natural ingredient which helps to boost your immune system. AlliDerm helps to heal wounds quickly and helps to prevent scarring.

Does not contain alcohol which can damage and dry out skin.

AlliDerm Gel can be used to protect your hands (and other exposed skin surfaces) from infectious organisms.

Directions: Apply AlliDerm Gel as often as required. Massage gently into the skin. Use at least once daily on the dry area. Best kept out of direct sunlight and should be used within 3 months. Can be used internally in the mouth or vaginally on a tampon or applied directly for a UTI, yeast infection, bladder infection, etc.

Ingredients: Aqua, Aloe barbadensis, Allicin AC-23 liquidum, Glycerin, Sodium Ascorbyl Phosphate (Vitamin C), Sodium hydroxymethylglycinate, Dehydro-xanthan gum, Citric acid.

Warnings: Avoid contact with eyes. Discontinue use if irritation occurs.
