

Allimax Rescue Spray (1 fl. oz.)

Allimax Rescue Spray contains 100% stabilized allicin from fresh garlic with **MINT** for throat and mouth health.

Now you can get all the powerful effects of 100% pure allicin in a liquid spray for throat, mouth and a boosted immune system. Includes a fresh mint flavor and all garlic is sourced from Spain.

Easy to use, Allimax Rescue Spray is an alternative way to reap the benefits of pure allicin from garlic in a liquid form. Simply spray into your mouth several times a day to boost your immune system and increase your throat and mouth health. Great for gums, tooth infections, gingivitis, mouth ulcers/sores and upper respiratory infections.

Through a patented process involving crushing, filtration and a temperature controlled extraction procedure designed to produce pure liquid allicin dissolved in water. No chemical solvents are used.

Recommended for children or adults who do not or cannot take capsules.

Directions: Use as often as desired or as directed by your health care provider for maximum health benefits. Refrigerate after opening for best results. Can be used on burns but may sting. Recommended to use cream or gel for topical applications as this is water based.

Ingredients: Aqua, Allicin liquid, aroma (peppermint).

Warnings: Discontinue use if irritation occurs.

How To Get The Best From Allimax Rescue Spray

Allimax Rescue Spray contains 100% standardized allicin from garlic - nature's anti-microbial agent. Allimax Rescue Spray can be used to help resolve conditions with a bacterial, fungal or viral cause.

Feet and Hands

For nail fungus infections or athlete's foot apply Allimax Rescue Spray twice daily to the affected area. Allimax Rescue Spray is easy to apply and should be carefully sprayed onto to each nail. Just two sprays per nail per day is needed to resolve these troublesome conditions. For added benefits in conjunction with spray, use 2 Allimax Capsules to fight infection internally.

Legs and Knees

Use Allimax Rescue Spray on any cuts, bruises, bites or stings which can become infected. Allimax Rescue Spray may be applied as needed. Spray on a bandage or dressing for easy application.

Trunk

Conditions such as eczema, psoriasis and rosacea may also benefit from a course of Allimax Rescue Spray . It is estimated that up to 95% of simple cases of eczema are infected by a bacterium called Staphylococcus aureus. Allimax Rescue Spray has been shown to kill multi drug resistant bacteria including Staphylococcus aureus. Children who suffer from viral infections such as molluscum contagiosum can also benefit when using Allimax Rescue Spray .

Use Internally

You may also use Allimax Rescue Spray internally in your mouth to treat, tooth abscesses, gingivitis, mouth ulcers and sores. It may also be used to treat sore throats and upper respiratory infections. Apply as and when required throughout the day.

Face

Another viral infection that needs immediate treatment is a cold sore caused by herpes simplex virus. Using Allimax Rescue Spray as soon as the lips begin to tingle, will quickly prevent the cold sore from worsening and will soon resolve the problem. A mild stinging sensation indicates that Allimax Rescue Spray is working.

Head

Warts are another example of a viral infection that can be removed with regular use of Allimax Rescue Spray . Applied once or twice daily. It may also be used as a shampoo additive to prevent head-lice infestation.
