

DiabaLife

DiabaLife is a researched Ayurvedic Medicine made with the patented active ingredient, 100% Stabilized Allicin. Allicin is a Natural Dietary Support for Diabetics and promotes overall wellness for ALL.

ONE capsule gives the equivalent health benefits of eating 360 CLOVES of fresh raw Garlic.

GREAT FOR THE FOLLOWING PEOPLE:

- With Type 1 diabetes
- With Type 2 diabetes
- With Gestational Diabetes Mellitus (GDM)
- Prone to diabetes
- Who want a healthy lifestyle

DiabaLife helps to stabilize and control diabetes and also targets your whole immune system to assist in protecting you from other diseases such as the flu and colds. DiabaLife is not just for those with diabetes, but also for those who want to prevent the onset of diabetes.

1.5 million people die every year due to diabetes-related complications. DiabaLife is a 100% natural product designed to maintain blood glucose levels and also works as a herbal remedy for numerous ailments. DiabaLife is perfect for people with Type 1 and Type 2 diabetes, people with Gestational Diabetes Mellitus (GDM), those prone to diabetes and those who just want to live a healthy lifestyle.

DiabaLife is made with 100% stabilized Allicin. Allicin is the active component in fresh peeled raw garlic which has many medicinal properties. But raw garlic has limitations such as it gets destroyed by stomach acid, decomposes by your intestinal epithelial cells, is effected by your body's pH and also can give you bad breath and/or body odor. By using a patented process, DiabaLife has over come all of those limitations by developing 100% stabilized Allicin and incorporating it into a pure vegetable capsule product.

One 450 mg capsule total, 125mg Allicin per cap, gives you the equivalent health benefits of eating 360 cloves of fresh raw garlic. The 100% stabilized Allicin extract in this formula also helps to control the HBA1C levels, cholesterol and blood pressure with research showing results within 3-4 months of consuming DiabaLife.

Ingredients: DiabaLife is made with only five powerful natural ingredients: 100% stabilized Allicin extract (125mg) (Garlic Bulb), Cinnamon, (31.5mg), Bitter Melon (31.5mg), Broccoli, and Spinach.

Ingredients included in DiabaLife are capable of reducing the HbA1c readings of sugar bound to Haemoglobin.
